Lisa Hitt
Contractor Software Corporation
2437 Morena Blvd. 2nd Floor
San Diego, CA 92110

Dear Lisa:

Just a short note to tell you how happy we are with our new Rack Mounted Server and all the new workstations, printers, fax machine and copiers that now interface with the new computer system that we had installed by Ofer last year. It is so nice to have the latest and the greatest technology at our fingertips and have no problems with it at all.

Thank you for providing us with the entire package all hardware, software and installation included. Our downtime was zero and we feel very secure knowing that your IT department Ofer is monitoring our system on a daily basis.

Contractor V upgrade for windows is the best thing since sliced bread. We love the fact that all the new technology that is available is now incorporated into the program and we especially like the easy direct deposit feature for our employees payroll checks.

I cannot say enough about your software support system and the quick response time if and when we ever have a need, which luckily isn't too often.

We have had a great working relationship with Contractor Software for more than fifteen years and looking forward to many more years.

Thank you for the great service you and your employees provide.

Sincerely,

Lucy Renko
Office Manager
