

SEAL ELECTRIC INC.

April 25, 2002

To Whom It May Concern;

We at Seal Electric Inc. have worked with Contractor Software Corporation and have used their software system for over ten years.

CSC's software support personnel are attentive and responsive to any needs we may incur. They make every effort to incorporate our desires into the programming of Contractor V.

We anticipate having a long relationship with CSC. If you should need any further information, I may be contacted via e-mail at kathy@sealelectric.com.

Sincerely,

Kathy Bongiovanni
