Dear Lisa,

Synergy Electric has been associated with Contractor Software Corporation since 1997. All the products we have purchased from you have been top quality. Being a Military and Public Works Contractor there are numerous reports we have to submit monthly; thanks to Contractor 3 and Contractor V there is no need for extra spreadsheets.

The staff at Contractor Software is top notch. No matter how big the problem, they're patient, knowledgeable and friendly.

I highly recommend Contractor Software products. I look forward to a long and successful relationship.

Sincerely,
SYNERGY ELECTRIC CO., INC.
